

To Whom It May Concern,

I am writing this letter to recommend Juan Carlos Chavarría Morales as a very skilled mathematician and a proficient data scientist. Having had the opportunity to work closely with him and witness his exceptional abilities firsthand, I am confident in endorsing him for roles that require advanced mathematical expertise and data analysis skills.

In 2018 I invited Juan Carlos to collaborate with us in Classroommate and using his knowledge of statistics and data science, we developed a hypothesis test that allowed us to prove the positive effect of our learning platform.

Throughout Juan Carlos's collaboration, communication remained consistently direct and clear. His final report proved to be a very valuable asset in positioning our company within the learning platforms market. You will be able to see for yourselves the clarity of Juan Carlos' report, enabling it to be comprehensible even to those with a basic understanding of statistics.

In summary, I wholeheartedly recommend Juan Carlos for any position or opportunity that requires a strong foundation in mathematics, data analysis and innovative problem-solving. He will undoubtedly bring huge value to any setting and continue to make notable contributions in his field.

Please feel free to reach out to me if you need further information or insights regarding Juan Carlos. I am confident that he will excel in any capacity he undertakes.

Sincerely,

*Eduardo Bobenrieth Cañas.*

Co-founder & Product Manager Classroommate
