Recommendation Letter

To whom it may concern,

We are pleased to extend this letter of recommendation on behalf of Juan Carlos Chavarría Morales, whom we had the privilege of getting to know and closely collaborating with over some semesters while working as an instructor in various Departments at Universidad Técnica Santa María.

Throughout his eleven years of experience, Juan Carlos demonstrated an exceptional commitment to teamwork and stood out for his ability to collaborate effectively with his colleagues. His active involvement in various Departments, where he held key roles, was crucial to the success of the implementation of the courses conducted.

Juan Carlos excelled in developing exercise guides, coordinating computer labs, and providing support in teaching assistant roles. His ability to work in collaborative environments and adapt to diverse responsibilities was evident in every task he undertook. Furthermore, his proficiency in communication and sociability significantly contributed to maintaining a positive and productive work environment.

Furthermore I want particularly to highlight Juan Carlos's competence in the creation of statistical reports for the Mathematics Department, together with his communication skills. I can personally witness his dedication and ability to approach to the different tasks that the Mathematics Department required.

In conclusion, we are confident that Juan Carlos Chavarría will prove to be a valuable asset to any team he joins. His exceptional work ethic, interpersonal skills, and experience in preparing statistical reports make him a standout candidate. Please feel free to contact me if you need further information.

Sincerely,

Francisco Cuevas Pacheco
Assistant Professor
Teaching assistants coordinator

Patricio Guzmán Melendéz
Assistant Professor
Academic coordinator
